TIMELINE
Pre YouTube/GHOST:

GHOST, better known today as Ghost and Pals is a Western Vocaloid and Synth producer. They've gone through various different usernames such as Onepockyaddict,

ShaShaChan, Shayfluffinlee, Visceraeffect, VHS-Kids, pgghostyboo, Ghostie-P, Marz Mitzi, and most famously; GHOST or Ghost-and-Pals!

Ghost's oldest known account is the Deviantart Account Onepockyaddict, Although the Exact date of the accounts creation is unknown, rough estimates say sometime between January to February of 2010. Before this they cosplayed as various characters, though these cosplays have been lost to time. As such, any dates you see in 2010 will be rough estimates of when they were uploaded as it's impossible to find specific dates as to when they were uploaded as no one specifically archived the posts via the way back machine.

The posts seem to suggest that this was before Ghost got into Utau or Vocaloid, with the first series of posts revolving around the franchise Soul Eater
